# Stiletto Nails

## Right Hand Score Sheet

	Points Achievable	Score Given
<b><u>Apex</u></b> The apex must be elegantly and consistently placed across all nails, suited to the length and shape. It should sit between 25%–50% of the nail bed when viewed from the side, with the same ratio maintained on each nail.	10	
<b><u>Nail Shape</u></b> The shape must be consistent from all angles, forming a clean sharp central point aligned with the finger's natural bone structure.	10	
<b><u>Cuticle Area</u></b> The skin must be free from cuts or irritation—any damage will result in point deductions. Product should be applied smoothly with no ledges or gaps, creating a seamless, natural-looking enhancement.	10	
<b><u>Smile Line – Pinkie &amp; Thumb</u></b> Smile lines must be clean, balanced, and consistent on both nails, with a sharp colour division and smooth blend toward the cuticle. Curves should align evenly, ending in sharp, symmetrical points within the lateral folds, and harmonise with the finger and nail shape.	10

<b><u>Creativity</u></b> Is the French design on the 3 nails executed in a fresh, modern, and stylish way? Does it demonstrate originality while respecting the fundamentals of a French style?	10	
<b><u>Originality &amp; Complexity</u></b> Is the design on the 3 decorated nails fresh, stylish, and original? Does it demonstrate thoughtful design with visible complexity,	10	
<b><u>Upper Arch – Upper Side Line (Top &amp; Side View)</u></b> From the side view, the upper arch must run evenly to the point and align with the lower arch on all five nails. From the top view, side lines must extend from the natural sidewalls, taper into a clean sharp stiletto point without being filed away.	10	
<b><u>Lower Arch / Lower Side Line (Side View)</u></b> Lower side lines must be straight, even, and extend cleanly from the lateral folds, meeting the upper arch at the sharp stiletto point. There should be no steps or ridges, and both side lines must sit at the same height when viewed from the side.	10
